### *A Lifetime of Exposure*

Release Date This Summer!

The hair on the back of your neck stands up. You get goose bumps, making your skin crawl. The slightest breeze sends a chill down your spine. Why? You have the feeling you're being watched. Your chances of being right are very high.

*A Lifetime of Exposure* explores the world of internet pornography. But who are the actors? Are they the glitzy, flashy stars selling their DVDs at local video stores? No. These stars are your neighbors and friends who don't even know they're being filmed.

On the book cover – Messier Custom Homes constructs high priced homes for wealthy, young professionals, west of the nation's capital. All Messier homes come with the latest amenities. But do the homes' features reveal more than these new homeowners bargained for? Detective Johnny Poleirno convinces Pat and Joe McKinney to join a child pornography investigation team in Orange County, Florida.? The desk job turns into action and adventure when the investigation uncovers more than a kiddie porn ring. The McKinneys, two ordinary guys, are thrust into life and death circumstances in *A Lifetime of Exposure!*

*A Lifetime of Exposure* is a work of fiction, but it doesn't take a genius to see the proliferation of cameras in our society. In the right hands, they're very useful. In the wrong hands, they can destroy lives. The big question is, who's hands are the right hands? Automatic cameras at intersections, restrooms, hotel rooms? Frightening!

### *A Lifetime of Terror*

Coming in the summer of 2010!

It was a horrific sight to see the World Trade Centers crumble and crash to the ground, taking with them thousands of victims. Their misfortune was to be in the wrong place at the wrong time. We can never let our guard down again. No matter what the official threat level, we must always be on our ready to stop these vicious attacks..

Every threat against our great country, regardless of whether it occurs in New York City, or in small towns across the United States, must be met with force and a resolve that sends the message: We'll not remain passive. Beware of the lion that you unleash.

Were there other events prior to 9/11? What do a Nuclear Power Plant along the Great Lakes, a petroleum refinery in the south, and an interstate highway have in common? They're all targets in a coordinated terror plot in *A Lifetime of Terror*. Pat and Joe McKinney, two ordinary guys, like you and me, are thrust into extraordinary circumstances as their family, friends, and countrymen are threatened with a terrorist attack that strikes at our heartland. How will they respond when placed in the most dangerous of situations?

Spend a weekend reading about Pat and Joe McKinney and their loved ones. Feel the emotions of family and friends as their relationships are pushed to their limits.

*A Lifetime of Terror* is tentatively scheduled for a release in the summer of 2010. Read future issues of The Murder Mystery Gazette for information on the progress of the manuscript. In the mean time, be sure to pick up a copy of *A Lifetime of Deception* and *A Lifetime of Exposure* (release August 2009).
